A Word to the Temperance People.

The Rev. M. B. Adams, president of the Anti-Saloon League of Kentucky, and one of the leading Baptist ministers of the State, has addressed a letter to those who have been associated with him for several years past in the cause of temperance, urging upon them the necessity of taking a hand in the present democratic campaign for the United States Senatorial nomination in behalf of Gov. Beckham. Dr. Adams has been at the head of the Anti-Saloon League for nine years past, representing it in legislative fights for the enactment of temperance legislation, and in the counties in local option fights, and has gathered about him the many who are in opposition to the liquor element and interests controlling the political parties and affairs of the State of Kentucky. On his own responsibility, and putting aside any other question that might be attempted to be injected into the race for the Senatorial nomination, Dr. Adams is acting in this matter, and he was never more in earnest in support of any matter.

The letter he is sending out to his workers over the State says that the fight now centered in the Senatorial race is by the liquor interests to regain their lost control of political affairs, which, through the passage of the "County Unit" bill, the "Rectifiers' tax" bill, the "Wholesale" bill and the "Shipping" bill, Gov. Beckham has taken from them. He calls upon his friends out in the State to help sustain the man who was the first of all Kentucky's governors to dare oppose the hitherto all powerful liquor forces, and adds that should the temperance people allow him to be defeated in the face of this fearful and corrupt fight against him, they will not in the future be trusted to sustain their public servants in standing for the moral interests of Kentucky, nor can they expect the next governor of the State to oppose the liquor interests as Gov. Beckham has done.

Dr. Adams says that he can testify to the sincerity of Gov. Beckham in his fight for temperance and regulation of the liquor business, and denounces as untrue the lies which have been circulated by the liquor people in this campaign with regard to the governor as a drinking man. The letter of Dr. Adams reads as follows:

Last winter the liquor forces of the State met with an overwhelming defeat in the passage of the "County Unit Bill," the "Wholesale Bill," the "Shipping Bill" and the fight for a tax on the business of rectifying and blending liquors. The passage of all these measures took from the liquor element the control in political affairs they have for many years exercised. They have also been mortally offended by being compelled by the governor to obey the laws forbidding the sale of liquor on Sunday. They have never received such treatment in Kentucky before and they naturally think the political and public life of this State belongs to them to debauch and corrupt as they please.

They are now struggling to regain their lost control. The first battle they wish to win in their campaign for the control of Kentucky is the defeat of Gov. Beckham in the November democratic primary for the nomination for U. S. Senator, for which he is now offering. If they could accomplish this defeat they would win three valuable points which would be a most fearful loss to the temperance interests after the great victories we have won. First, they would obtain by his defeat the control of the democratic party. Secondly, they would be in fine political position to control the next Legislature and repeal the temperance measures recently passed at such great cost. Thirdly, they would so frighten the next governor of the State that he would not dare to oppose the liquor interests as Gov. Beckham has done. Should they accomplish this, the work of the temperance people running through many years, would be overthrown.

Without the assistance of Gov. Beckham the "County Unit" and other bills could not have passed. I know their history in every detail and am appealed to the governor on behalf of the temperance people of the State to give his assistance, which he gladly did. If the governor was only playing politics, it was mighty poor politics. I can testify to his sincerity. All kinds of lies are being circulated by the liquor people to harm Gov. Beckham, such as, that he is a drunkard and brutal in his family. I personally know these to be untrue. Tens of thousands of dollars are being put into the campaign against him. The liquor people are depending on his defeat for their return to political power.

I am sending this letter on my own responsibility to you as a leader. I ask you to help sustain the man, who, first of all Kentucky's governors, has dared oppose the hitherto all powerful liquor forces. If the temperance people allow Beckham a defeat in the face of the fearful and corrupt fight waged

against him by the solid saloon forces of the State they will not in the future be trusted to sustain their public servants in standing for the moral interests of Kentucky.

For nine years I have labored at Frankfort for the temperance cause in Kentucky without a cent of remuneration and at a much larger cost to myself than I could afford. These have been nine years of suffering and trial. Much has had to be endured from the enemies of our homes, whose interests I have antagonized on behalf of the Commonwealth we all love and hope to see redeemed from the liquor blight. I believe I have a right to appeal to every temperance voter in the democratic party to work from now until the day of election to prevent the winning of this first battle by the saloon power to gain control of the State. I would not have the heart to go before another Legislature or before another governor if the people should prove ungrateful enough to allow the enemy to win their first battle after their disastrous defeat of last winter.

If we can defeat the whisky forces at this point we can win the next Legislature and place such additional laws in the statute books as will in the next few years redeem Kentucky from the saloon.

Will you help? Never cast a vote on the same side the saloon keepers vote. Yours sincerely,

M. B. ADAMS.

An Awful Cough Cured.

She stopped coughing and got stout and fat," writes Mrs. Ora Bussard, Brainerd, Ill. This remedy is for sale by Stanford Drug Co.

The "Hustonville Gold Mining Co." has completed its organization by the election of the following officers: J. P. Goode, president; W. G. Cowan, first vice president; George D. Weatherford, secretary and treasurer. The numerous inquiries for not only shares but blocks of stock in this company have up to this time all been answered "no stock for sale." The crucial test of the samples is a well guarded secret, but phenomenal is the confidential report of one of the officers. Seventy years or more ago some Indians knew of a mine near Carpenter's Station, from which they secured large quantities of rich ore which they took to Danville and traded for supplies. Later George W. Riffe and R. S. Tucker, knowing of these facts did considerable prospecting in that vicinity without making a strike. This ore is found in a branch at the foot of a knob near the Casey line.

The first voluntary contribution toward a fund for a Kentucky representation at the Jamestown centennial celebration next year was received by R. E. In the letter accompanying the contribution, Mr. Mount expressed the hope that he would be one among 25 or 50 of his home town to make a like contribution. He also said that he hoped that every city, town and village in the State would catch the fever as soon as possible and begin sending contributions.

BREX ALBRIGHT takes a column of his valuable space to answer a paragraph in our Tuesday's issue admonishing him to go slow and not attempt to belittle so good a man, official and democrat as Gov. Beckham is. He even goes so far as to quote from "knocker" Hays and the late J. C. S. Blackburn to prove that Kentucky's model governor is a man of small caliber and an "accident." Certainly our young friend has forgotten the condition of the State's affairs when Gov. Beckham took the reins of government. That he brought order out of chaos and peace, prosperity and contentment out of days that were dark and stormy, we do not suppose Mr. Albright will deny, notwithstanding his personal dislike for the governor. Admitting that he has made even a fairly good governor under the trying circumstances, is he not deserving of some credit? Should he be called an "accident" after such service to his State and party? He is no more an accident than the assassination of the lamented Goebel was an accident. 'Tis true that the removal of Mr. Goebel made him governor, but has he not been elected twice by the people since, the latter time by the biggest democratic majority any governor has received in 20-odd years? Mr. Albright seems to forget all this when he joins hands with Blackburn, Hays and other malcontents in abusing the State's highest official. Certainly Mr. A. is jesting when he compares him, or even mentions him in the same sentence, with the unspeakable Deboe. If he means what he says along that line, we are really growing alarmed about our good, but sometimes indiscreet brother of the tripod, and recommend that his townsman, Mr. John W. Brown, have his case looked into. But enough about that. We do not blame you, Mr. Albright, for supporting Senator McCreary. He is a fine man and has made a good Senator and filled well the dozen or so other offices he has held. This paper supported him nearly 40 years. But what we are driving at is this: Quit your harsh words of Gov. Beckham and try and pull Senator McCreary through on his merits, rather than any demerits you may imagine in the governor's make-up.

THE break up of the paper trust by the government was heralded as a great performance, but its glory was but of a day. The mill owners in the former paper trust have celebrated its dissolution by raising the price of their product \$5 a ton, which goes to show that the anti-trust law cannot reach that class of combination in trade. Now, then, is the time to try a total repeal of the Dingley duties on paper and wood pulp.

SENATOR MCCREARY said in his speech at Harrodsburg that he will never ask for office again. Wouldn't it be real funny if the clever old gentleman would settle down to private life? Forty years before the public is a long time, but his official career has been a most honorable one and he is entitled to spend his declining years in the privacy of his home and family.

BOSTON has one woman who is legally her husband's boss. She is Mrs. Ellor Carlisle Ripley, one of the assistant superintendents of the public schools of the city, and her husband is a teacher and she draws \$1,500 a year more than he does. Most women are bosses of their husband, but they can hardly rub it in as this one can.

"ORGANIZED labor is organized tyranny," said Bishop Berry in addressing the Methodist Rock River Conference in Illinois. The bishop has a cinch on his job or he would not vociferate thusly. There is not a candidate for office of any degree in the United States who would dare utter such an accusation, if he believed it.

IN his speech at Henderson Gov. Beckham said that he could stop the howl that is going up against the so-called machine if he had enough jobs to give to the "antis." We hadn't thought of it before but there is a good deal of "horse sense" in the governor's remark.

JUDGE FRANK PEAK, who declared the County Unit bill unconstitutional, has taken the stump against Gov. Beckham. The judge has had an imaginary grievance against the governor for some time.

POLITICAL.

Senator Beveridge, of Indiana, delivered a political speech in Lincoln, Neb. He paid a high tribute to W. J. Bryan, but said Mr. Bryan was "an impracticable idealist."

Senator Bacon, of Georgia, declares the time is not yet here for Cuban annexation. Among the problems which, he says, it would entail, is a complication of the Negro question now giving so much trouble.

Republican county conventions were held in the Second district Saturday to elect delegates to the district congressional convention to be held at Dawson Springs to-day. Most of the counties instructed for Paul M. Moore, of Earlington.

John Sharp Williams is the favorite among democratic committees of the country as a stump speaker, and it is said that the demand upon his time is greater than the demand for William Jennings Bryan. Congressman Williams probably will speak but once in Kentucky during the campaign.

John B. Moran was unanimously nominated for Governor of Massachusetts by the Democratic State Convention held in Boston, and a platform calling for many sweeping changes in legislative and municipal affairs was adopted. The platform also eulogized W. J. Bryan and W. R. Hearst, and before the convention adjourned it adopted a resolution offered from the floor endorsing Mr. Bryan as the next Democratic nominee for President.

A dispatch to the Cincinnati Enquirer says that a poll of the Democrats has been completed in the first four congressional districts by Gov. Beckham's workers, and it shows the districts will give 21,000 majority for Beckham. It was stated that the poll of the other districts had not been completed, but enough counties have been heard from, it is claimed, to show that Beckham will go to Louisville with not less than 27,000 majority.

A BIRTHDAY PARTY.—Friday, Oct. 5th, a few of the relatives and friends of Mr. George L. Carter gave their friend and neighbor a pleasant surprise, it being his 80th birthday and the 47th anniversary of his wedding day. With baskets well filled with all the good things for which McCormack housewives are famed, almost a dozen carriages drove to the Carter home and the occupants took possession for the day. All was gloomy without but sunshine and gladness reigned within and "Uncle George" grew young again telling of the "good old times when he was a boy." Music, conversation, flinch and croquet whiled away the few short hours before dinner was announced. A table well laden with all the delicacies of the season and a dinner served in the yard in old-fashion style awaited us. How tempting to the appetite, how delicious to the taste and how satisfactory to the "inner man," we leave the gentlemen to say. Sufficient for us to tell you that of the 33 present all were well-fed and enough left to feed as many more. All too soon the hour for departure was at hand and each one went his way with pleasant memories of a day well spent, a dinner never to be forgotten and a hope that many birthdays may come and go ere our hale and hearty old friend will be taken from those who know and love him. Our thanks are tendered to Capt. B. F. Powell, who planned the surprise and invited us to participate, and to Mr. and Mrs. J. M. Carter for throwing wide their hospitable doors and receiving us with open arms. Several nice and useful presents were received.

HAYS' SPEECH.—Attorney General Hays was introduced to a good audience yesterday afternoon by Judge R. C. Warren, who took occasion to knock several spokes out of the fearful "machine" at Frankfort. Said he, "unless we clean up the machine we will be cleaned up ourselves." Judge Warren predicted all sorts of horrible things should the machine remain in tact. He also informed his hearers that Senator McCreary would wipe up the earth with Gov. Beckham in the Senatorial race, and alleging that Judge Hager is a part of the awful "machine," he said he would only support him in the event he was compelled to do so. As a "machine buster," Judge Warren proved almost the equal of the speaker, who has heretofore been in a class by himself in that line.

Mr. Hays' speech was about the same as those he has distributed all through his campaign—a tirade on Gov. Beckham and the entire administration. He pictured the horrors of the machine and told of the necessity of defeating every candidate who was directly or indirectly connected with what he termed the "gang at Frankfort." He told how the State had been robbed, but failed to say why he did not try to stop the proceedings. One would have concluded that Mr. Hays was running against Gov. Beckham rather than Mr. S. W. Hager from his remarks about the chief executive. The republicans, and there were a number in the court-house, enjoyed Mr. Hays' effort to the fullest extent and applauded vociferously as he dealt out ammunition to them to be used in the coming election and the one a year hence. As he always does, Mr. Hays threw a bouquet to Senator McCreary and predicted his nomination by 75,000. This brought forth considerable applause. When Mr. Hays told his hearers that they could get his speech by coming forward, the crowd almost fell over each other to get a copy.

"WHERE has all the money gone to?" asked Assessor W. A. Carson of us the other day. "The hanks are full of it but it is a rare case that those who give in their property to me ever have a cent in bank. Diamonds are also as scarce as hen's teeth when the assessor comes around, but I see lots of people wearing them," he added. The question was too hard for us and we passed it up.

Maybe You Don't Object to Having

your clothes made of cotton-mixed fabrics; possibly you think "a little cotton won't do any harm."

"All right; but you do object to paying a price based on 'a little cotton' for clothes that are more than half cotton."

That's the trouble with all adulteration in clothes, or anything; the minute you admit that "a little doesn't hurt anything," you've opened the gate wide. We've seen suits being sold at \$20 and \$25 that looked like the price, but when tested, showed nearly 50 per cent. cotton; worth about \$5 if you judge by the way they look in a month's wear.

That's why we sell Hart, Schaffner & Marx clothes; they're all-wool, and there's no fraud or deception about that. You know exactly what you're getting for your money when you spend it for these clothes; and you get it here.

Wounds, Bruises and Burns.

By applying an antiseptic dressing to wounds, bruises, burns and like injuries before inflammation sets in, they may be healed without maturation and in about one-third the time required by the old treatment. This is the greatest discovery and triumph of modern surgery. Chamberlain's Pain Balm acts on this same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness and prevents any danger of blood poisoning. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering such injuries entail. For sale by Stanford Drug Co.

It is believed that the disarmament of the Cuban rebels cannot be successfully completed until the volunteers organized by the Cuban Government are paid off, disarmed and disbanded. This is the position taken by the rebel commanders and the provisional Government is disposed to yield to the demand. In some quarters the insurgents are concealing their weapons. Gov. Taft said that he had no intention of turning back any portion of the expedition of 5,500 regular troops ordered to Cuba. He feels that this number is needed as a precaution against future trouble. Although he does not pay serious attention to the rumors of opposition to the disarmament of the insurgents, he says that the troops will be sufficient to fully garrison the towns and will establish confidence among the disbanded insurgents that they will not be imposed on by the municipal police or rural guards.

PRACTICAL POLITICS.

He made a fine oration.

In fact, was simply great.

Implying every voter

To save the Ship of State.

He showed the mists and dangers

In words both strong and pat.

But when the speech was ended

It fell extremely flat.

Success was quick to see;

His brief address so stirring

Was just: "Have one on me."

Notice of Election!

Regular April term, 1907, Lincoln County Fiscal Court met pursuant to adjournment this April 4, 1906. Present Hon. R. P. Warren, Judge, presiding, with the following Justices of the Peace, Lewis W. Adams, W. M. Judler and W. D. Wallin.

It was moved by Justice W. M. Judler and seconded by Justice W. D. Wallin that the following action be taken by this court: The grand jury of Lincoln county at the last term of the Lincoln county court, having recommended a new court-house for Lincoln county, and it appearing to the satisfaction of this court that the court-house now in use is unsafe and inadequate for the public convenience and the preservation of the public records, it is ordered and adjudged that the sum of \$500 be suggested as the sum necessary to build a new court-house, and it is further ordered that an election be held, and a poll opened, at the second voting precinct in Lincoln county, on the 4th day of November, 1906, the day of the next general election, at which the appropriation, above suggested, shall be submitted to the legal voters of Lincoln county for their approval or rejection.

The clerk of Lincoln county is directed to advertise said election for at least 30 days next before the day thereof, in the Lexington Daily Express, being the only newspaper published in Lincoln county, and the officers of said election are directed to hold the election between the same hours and that they are required to hold elections for county officers, which election shall be held and conducted in all respects as required by the general election laws in force in this state at the time the same is held.

The clerk of the Lincoln county court shall cause to be printed on the official ballots, to be used in said election, the words and figures: "Are you in favor of an appropriation of \$500 for building a new court-house, for Lincoln county?" and for voters favoring the right of same, one for voters favoring the appropriation, to be designated by the word "Yes," and one for voters opposing the appropriation to be designated by the word "No," and said clerk shall prepare said ballot in all other respects as required by section of the Kentucky statutes.

In the event that the requisite number of legal voters of Lincoln county vote in favor of said appropriation, it is ordered that this court cause the bonds of Lincoln county to the amount of \$500 to be proposed, executed and issued on printed forms under the seal of the county, to be signed by the presiding judge of the Lincoln county court and be countersigned by the clerk of said court, payable to bearer at Lincoln County National Bank, of Stanford, Ky., 30 years from the date of same with the option of paying same in 15 years from date, which bonds shall not bear a greater rate of interest than 1 per cent. per annum payable semi-annually at Lincoln Co. Nat. Bank, of Stanford and three coupons shall be attached to said bond, signed by the clerk of the Lincoln county court. Said bonds shall be issued in denominations of \$50. The bonds and coupons were entered on said motion and the same were passed unanimously, all of the justices voting for same, namely Justices R. P. Adams, W. M. Judler and W. D. Wallin, and a quorum of this body.

Mrs. Harvey Burks, Harrodsburg, Illinois. Cured by "ZEMO" After Five Years' Torture.

WHY? SUFFER THE TORTURE OF ECZEMA OR ANY SKIN DISEASE WHEN THIS GOOD MEDICINE +ZEMO+ HAS NEVER FAILED TO CURE

E. W. HORE MEDICINE CO., St. Louis, Mo.

HARRISBURG, ILL., May 12th, 1906.

DEAR SIR:—Believing that "ZEMO" saved my arms, I am glad to tell all sufferers from eczema what your good medicine did for me. I suffered six years from a torturing case of itching eczema of both arms. I tried eight different doctors and a very expensive cure I could bear of without relief. The disease grew worse and spread to my neck and breast; my arms had great holes eaten in them. I was unable to sleep and was confined to my bed part of the time. My husband bought a bottle of "ZEMO"; the first application stopped the itching, and I began to improve. In six weeks and one day the disease had disappeared. All my arms were clean and smooth as my picture will show. Before and after using "ZEMO". My arms were so bad some of my friends wanted me to have them taken off, but I would not agree. I am now entirely cured and have gained ten pounds in weight, and feel better than I have felt in many years. I consider my quick recovery by using "ZEMO" nothing short of a miracle. I will gladly answer all inquiries and recommend "ZEMO" to all persons suffering from any itching skin disease. Yours gratefully, Mrs. Harvey Burks.
